- YES NOT ENOUGH NO

If you answered "yes" to the above questions:

What can I advocate for as next steps?

What impact can I make?

If you answered "no" or "not enough" to the questions above:

What is already working at my school site(s)?

What might be a good first step for change?

What do I need to learn more about before taking next steps?

What websites/resources should I explore further to help me or give more ideas?

What will I start doing differently my next day at school?
